

RGA is proud to be a NAHAD Listed Member

RGA uses standards that ensure the safest, highest quality, most reliable hose assemblies. Our employees have taken and passed over 575 NAHAD tests at a cost of approximately \$30,000. That's almost 1/3 of all NAHAD tests passed from all organizations combined as of 2008. We have spent many hours in training and testing to ensure all our locations have the expertise necessary to supply the highest quality assemblies in the market. Safe hose assemblies from RGA add to your bottom line through:

- Minimized lost employee time and equipment down time
- Minimized environmental impact
- Safer workplace
- Increased worker and equipment productivity
- Reduced reorder costs
