

CUSTOM GASKETS CUT WITH PRECISION

RGA has been cutting gaskets for almost 45 years. Whether it's large volume, OEMs, or special cut MRO gaskets, RGA has the equipment, experience, and the employee owners who take great pride in making sure the job is done right. From single piece gaskets up to 60" x 180" or larger segmented gaskets made from various materials up to 5" thick, RGA has the capability to meet your needs for all types of industrial applications. Custom cuts can be any size or shape from any supplied drawing to ensure that close tolerances can be met. We are committed to being a top quality gasket supplier to the industrial and OEM markets and we can provide closer tolerances than waterjet cut gaskets at competitive prices.
