Belt Accessories · Industrial Hose · Metal Hose  
Hose Accessories · Hydraulic Hose & Fittings  
Fluid Sealing Materials · Gaskets · Power Transmission

AN INTRODUCTION TO THE RUBBER & GASKET COMPANY OF AMERICA

# WHO IS RGA?

[www.rgausa.com](http://www.rgausa.com)

# RGA is celebrating over 20 years of being an employee owned company

OUR PLEDGE IS TO PROVIDE THE MOST VALUE FOR THE PURCHASING DOLLAR WHILE PROMOTING QUALITY CONTROL AND CUSTOMER SERVICE AS PARAMOUNT IN FILLING EVERY ORDER.

RGA is an authorized full line industrial rubber distributor and fabricator. We participate in both wholesale and retail sales of Hose, Belting, and Fluid Sealing products to industrial and commercial accounts. Full stocking fabrication centers exist in Arkansas, Indiana, Ohio, Missouri, Oklahoma, Tennessee, and Texas. RGA has industrial specialists in gasket cutting, belt vulcanization, hose assembly, metal hose, and expansion joint welding.

**RGA can respond to any of  
your immediate needs,  
no matter the time.**

As an industrial rubber distributor and fabricator, RGA offers products and value added services which enhance the use of those products. We address applications for the movement or sealing of air, water, gas, chemical, food, and bulk material. A full complement of support lines create the flexibility to fabricate a broad range of specific items.

Vulcanization of belting, gasket cutting, mechanical attachment of hose fittings and lacing, welded metal hose, testing and certification of assemblies all lend credence to our full line of capabilities. A variety of services are available to our customers in house, and at the plant site. Surveys and seminars are conducted to promote education and awareness of industry developments.

**Contact your RGA Sales Representative today or  
dial the closest RGA location, provided on  
this brochure. We look forward to  
hearing from you soon!**

**RGA is available  
every day  
all day**
