RGA recommends leading products

Whatever your industry, we can provide you the best selection of Habasit fabric based belts, plastic modular belts, and power transmission belts available in the industry, complemented with gears.

Our response to any request that you may have will be nothing less than exactly your best solution.

EXPECT NOTHING LESS THAN THE BEST SOLUTION

Lightweight Belt

www.rgausea.com

AN EMPLOYEE OWNED COMPANY

RGA delivers Habasit lightweight belting that serves many different industries

WE SERVE THE FOLLOWING INDUSTRIES: TEXTILE/PRINTING, PAPER, POSTAL/BUSINESS MACHINES/PACKAGING/FOOD/MATERIALS HANDLING AND AIRPORTS/AUTOMOTIVE AND TIRES/WOOD/TOBACCO/FITNESS/WIND ENERGY/CHEMICAL, OIL, AND GAS

Every industry is unique with special requirements and conditions that continue to change and evolve. These may range from the fulfillment of legal requirements for food contact through coping with bulky shaped goods, as well as over long and winding conveyors to high precision and wear resistance features.

RGA provides service to our main industries...

- Food
- Packaging
- Materials handling
- Automotive and tire
- Printing, paper, and postal
- Wood

FOOD

The number one priority for food processing is hygiene, therefore hygienic design and cleanability are mandatory. We need to ensure that the belts are resistant to the ingredients contained in the foodstuff they transport. International companies trust Habasit solutions and take advantage of HabasitLINK® plastic modular belts, KVP plastic spiral belts, food conveyor, and processing belts. Our solutions include many innovations like belts featuring antimicrobial additives, which fulfill legal requirements as per applicable region.

PACKAGING

Habasit's product range meets all requirements of the packaging applications. The hygienic design and cleanability of our solutions fulfill the most demanding requirements. The key attributes of Habasit products like low friction, low noise, and smooth running ensure safe conveyance of packaged products even at high speeds.

MATERIALS HANDLING

No matter what kind of goods your company has to handle, RGA offers dependable and cost effective Habasit solutions to any materials handling application. Whether your needs are gentle handling, longer lifetime, or saving money in straight, inclined, or radius conveyor applications, we have never turned down a challenge in any domain of materials handling.

AUTOMOTIVE AND TIRE

New technologies are radically changing production; selection of the right belts has become decisive for producing cars and tires efficiently and economically. Habasit offers a complete, innovative range of products and solutions. RGA supplies HabasitLINK® plastic modular and HabaFLOW® fabric based conveyor and processing belts, HabasitDRIVE® power transmission belts and gear motors for all automotive applications including press lines, punching machines, skid conveyors, and people mover belts.

PRINTING, PAPER, AND POSTAL

Printing, finishing, and paper/cardboard converting processes require a broad range of different belts. HabaFLOW® fabric based belts, HabaSYNC® timing belts, HabasitLINK® plastic modular belts as well as Habasit chains and seamless belts perfectly meet customer needs.

WOOD

Wood is a valued natural material that needs to undergo considerable processing. You'll find Habasit conveyor and power transmission belts and HabasitLINK® plastic modular belts in wood plants around the world processing the raw materials to make plywood, particleboard, MDF, and OSB.
